Zabbix acceptance

1. Host dashboards.
    a. Add host dashboard tabs for quick access.   **UI1**
        i. Quick access must contain dashboard tabs in alphabetical order from selected host.
            1. Use existing UI tab control and functionality (e.g. Latest data filter tabs), except
                a. remove capability to configure tabs.
                b. remove "Home" from Expand popup tab list.
                c. change background color of selected tab (similar to multi page dashboard).
            2. Each tab must open corresponding host dashboard.
            3. Default is first dashboard tab (from alphabetically ordered list).
    b. Rename screen title from host dashboard name to title "Host dashboards", to avoid host dashboard name duplication.
2. Remove host dashboard selection drop down (next to "Kiosk mode" icon).

Zabbix UI changes
